Dear Customer and Friend:

Welcome to our Great Southwest Sale. There is special excitement about this sale, because it is our first to be held in our home city of Dallas, and it is the largest sale of its kind ever to be held in the southwestern United States.

Included in the sale are over 1,300 lots, ranging from Colonials to rare numismatic books. In all, there are coins from over fifty collections represented. The Large Cents are highlighted by a collection assembled in the late 1940's by a midwestern banker. A spectacular set of Walking Liberty Halves, which was assembled by a very quality conscious collector in the late 1960's, enhances the selection of Half Dollars. In addition, there is an extensive collection of gold coins, including a Choice Proof Stella and a Gem BU Panama-Pacific set in its original box. There are also over 70 lots of U. S. Pattern coinage. Literally hundreds of Choice and Gem type coins, many of which have been in collections for well over thirty years, are also available for your consideration. In short, there should be something for everyone.

We have strived to catalog each and every coin as accurately as possible. If it seems that the coins listed have more imperfections than normal, it is simply not true. It is just that we are trying to give our bidders the most accurate descriptions possible. When we say "light hairlines", we mean just that. We have found in the past that by communicating with our bidders in an honest and intelligent manner, they will respond accordingly.

All of our auctions are totally unreserved. Of course, not all auction houses hold unreserved sales. Some auction houses hold reserved sales and others have partially reserved sales. We urge you to read our explanation of bidding in an unreserved auction on page iii. According to our policies, it is possible to buy lots at less than the maximum bid. In our "Gateway Sale", over half of the lots awarded to mail bidders were at less than their maximum bid.

We wish you good luck in your bidding. Should you have any questions concerning this sale, please do not hesitate to call me, or a member of our staff.

Sincerely,

*Bob Merrill*

## Terms Of Sale

1. The highest bidder acknowledged by the auctioneer shall be the buyer. In the event of any dispute between bidders, the auctioneer's determination shall be final. The auctioneer may at his discretion immediately put the lot up for sale again.
2. All bids are to be per lot as numbered in this catalog and no lots will be broken. Bids accepted in whole dollar amounts only.
3. All sales are strictly for cash in U.S. funds and must be paid for promptly upon receipt of the auction invoice and/or the coins. Lots delivered on the floor are subject to all applicable state and local tax, unless appropriate permits are on file with us. Shipping, handling, and insurance charges will be added to invoices for lots delivered by mail.
4. New bidders who have not previously established credit must furnish satisfactory references well in advance of the sale date, or send a deposit of 25% of their bids, applicable to purchases. Any portion of such deposit not used will be promptly refunded after sale. We reserve the right to require payment in full before delivery of the merchandise. Title remains with Steve Ivy Numismatic Auctions, Inc. until all invoices are paid in full.
5. No buy or unlimited bids accepted. Mail bidders will be awarded lots at a 5 – 10% advance over the second highest bid. (See explanation of Bidding in an Unreserved Auction). No commission is charged for executing mail bids.
6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully. When identical mail bids are submitted, preference is given to the first received.
7. Estimates will be given upon written request. Estimates regarding the value of the Auction Catalogs and Reference Works represent the cataloger's professional opinion as to the value of the lot. It is recommended that bidders approach or exceed the estimates in determining successful bids.
8. Minor's bids will not be accepted.
9. All coins are guaranteed genuine. No lots may be returned without written approval. In the unlikely event of returning a lot, we must receive notification of bidder's intent within three (3) days of his receipt of lot. No lots may be returned after this period except for reason of authenticity. Lots returned must be housed intact in the original holder. No lots purchased by floor bidders may be returned.

## Bidding In An Unreserved Auction

In an unreserved auction, there are no hold or reserve bids on any lots. Each lot is sold to the highest bidder.

In bidding by mail, it is possible to purchase a coin at a price less than your maximum bid. The following is an explanation of the mail bid procedures followed by this company:

Bids are recorded as they are received. At the close of mail bidding, the highest and second highest bids are transferred to the bid book.

On the floor of the auction, bidding is opened at 5 to 10% above the second highest mail bid. This bid is submitted by our company acting on behalf of the highest mail bidder. If the auctioneer recognizes no other bids from the floor, the highest mail bidder is awarded the lot at the opening bid. If bidding proceeds from the floor, the company, acting as the mail bidder's agent, registers bids in 5 to 10% increments over the previous bid. This process is continued until the mail bidder is awarded the lot, or the next bid is higher than the mail bidder's maximum bid.

An example of this procedure is set forth under these conditions:

On lot 25, highest mail bidder submits a bid of \$100, second highest mail bid is at \$50. In this case, bidding on the floor starts at \$55, and is bid by our company on behalf of the highest mail bidder. If no other bids are submitted by the floor, the highest mail bidder, who bid \$100, has purchased the lot for \$55. If other bids come from the floor, we bid for the highest mail bidder in 5 – 10% increments, as set by the auctioneer, until we reach the mail bidder's maximum bid of \$100. Since bidding has passed the mail bidder's maximum, we take no other action, and the bidding continues on the floor until the final purchaser has been recognized by the auctioneer.

Using this procedure, the mail bidder retains many of the advantages of the floor bidder.

As outlined above, it is clear to see that coins can be purchased at a price less than the maximum mail bid. This method of bidding for mail bidders is followed in this and all of our auctions.

## Quantitative Grading

The quantitative grading system is utilized in describing and grading all coins in this catalog. The quantitative grade will be used in conjunction with the traditional letter grade in order to best describe the condition of the coin.

- On occasion, we will use a plus (+) to designate that a given coin is somewhat better than the quantitative listed grade, but not nice enough to qualify for the next highest number. An example would be a 45+ grade which would be the equivalent to EF/AU.

Poor	=	1	Extra Fine	=	40 and 45
Fair	=	2	Almost Uncirculated	=	50
About Good	=	3	Ch. AU	=	55
Good	=	4 and 6	Uncirculated	=	60, 65 and 70
Very Good	=	8 and 10	Proof	=	60, 65 and 70
Fine	=	12 and 15			
Very Fine	=	20, 25, 30 35

## ROOSEVELT DIME

437 1968 No "S". CHOICE PROOF (60+) This is an extremely rare coin and, to our knowledge, there are probably fewer than a dozen pieces known. All other pieces we have seen have been with the remainder of the Proof Set. This coin was removed from the government plastic before the owner realized what he had. As to its value, we do not know. It is, however, extremely rare and worthy of your consideration.

## EARLY QUARTERS

- 450 1804 EXTREMELY FINE (40) A most pleasing example of this rare and popular Early Bust Quarter. Very nice detail with virtually perfect surfaces. The only nicer piece we are familiar with is a Mint State example currently offered at \$35,000.00. An excellent opportunity for the specialist. (see color photo)
- 451 1806/5 EXTREMELY FINE/ALMOST UNCIRCULATED (45+) Again, another very pleasing example of an Early Bust Quarter. Nice color with a hint of luster. (see color photo)

- 459 1833 BRILLIANT UNCIRCULATED (60) Well struck with Prooflike surfaces. This coin is not struck from the rusted dies, as are most 1833 Quarters. It does, however, have some interesting clash marks. In fact, the entire silhouette of the bust is outlined on the reverse. Quite interesting. (see color photo)
- 460 1834 ALMOST UNCIRCULATED (50) Cleaned at one time, but now nicely toned. A very attractive example.

From being stored in the Treasury basement, there are a few insignificant water stains on this Shield, as there are on most. The Shield will grade AU and is nicer than most we have seen.
